

Adam Bossi

Project Consultant

Work Experience:

Adam Bossi is a land use, parks and environmental planner with ten years of experience administering state and local land use and environmental protection programs, managing municipal open space systems and contributing to improvements in public parks planning programs, policies and regulatory reforms. Throughout his career Adam has drawn upon his background in landscape architecture, sustainable design, real estate and conservation to conduct due diligence and support decision making of appointed and elected boards and commissions in their regulatory review and decision making associated with well over \$1 billion dollars in public and private infrastructure and land development projects. He has planned and facilitated public meetings, workshops, and educational sessions regarding state and local parks, recreation and natural resource conservation issues, land use regulation and related community quality of life concerns. Prior to joining GreenPlay, Adam most recently assisted in preparing Maryland's Statewide Comprehensive Outdoor Recreation Plan, helped to lead a major collaborative update to Maryland's statewide land preservation, parks and recreation planning guidelines and was appointed by Governor Hogan to serve as the State's Liaison Officer to the federal Land and Water Conservation Fund.

Public Sector

- Appointed to serve as a State Liaison Officer to the federal Land and Water Conservation Fund. Managed all program functions and tracked \$3.5 million in project budgets. Prepared grant applications, amendments and regularly coordinated with the National Park Service, state, county and non-profit partners.
- Finalized Maryland's current Statewide Comprehensive Outdoor Recreation Plan in collaboration with consultants, state and county parks and recreation leaders and stakeholders. Managed final public input process, edited the document and ushered it through the federal approval process; qualifying Maryland to receive \$800,000 in Land and Water Conservation Fund grants annually through 2019.
